

**PRESS RELEASE**  
**Paris-Argiroupoli, 20 November 2025**

## **JUWI sells 156 MW PV portfolio to Mirova, signs EPC and O&M contracts in Greece**

**JUWI, a wholly-owned subsidiary of MVV Energie AG, has signed an agreement with Mirova, an affiliate of Natixis Investment Managers dedicated to sustainable investing, for the sale of a 156-megawatt solar photovoltaic portfolio in Greece. Following the successful completion of the mergers and acquisitions (M&A) deal, JUWI has been appointed as the Engineering, Procurement, and Construction (EPC) and Operations and Maintenance (O&M) contractor for the entire portfolio. Construction is scheduled to commence in November 2025.**

**JUWI Hellas has successfully developed Clover PV portfolio, with a total capacity of 156 megawatts (MW), taking a significant step toward a greener future.**

The four projects comprising the **Clover solar PV portfolio** are located in the regional units of **Kozani and Grevena**, in Northwest Greece. With a total installed capacity of **156 megawatts**, the portfolio represents a major step forward in JUWI Hellas' commitment to utility-scale renewable energy development. JUWI Hellas will serve as the **EPC** contractor, overseeing the complete technical design, equipment procurement, and construction of the solar plants. **Construction is scheduled to commence in November 2025.** Upon completion, JUWI will also take on the **O&M** of the facilities, ensuring optimal performance, long-term reliability, and continued contribution to Greece's clean energy future.

Once operational, the projects will generate over **300 million kilowatt-hours** of clean electricity annually, enough to power more than **75,000 people**. Collectively, the projects will deploy 243,500 bifacial solar modules, over 480 string inverters, and 9,100 single-axis trackers, spanning 257 hectares, an area equivalent to more than 350 football fields.

### **Internationally expanding renewable energies**

With the successful completion of the Mirova transaction and the resulting assignment of the EPC and O&M contracts, MVV's project development subsidiary, JUWI, once again demonstrates the strength of its diversified business strategy which combines both in-house development and acquisition of mature project rights. This approach has consistently delivered results, as seen in recent large-scale solar developments, including: the 204 MW solar park in Kozani, Greece, the 267MW solar portfolio in Domokos, Greece and the 223 MW "Pike" solar park in Colorado, USA.

*"Following last year's landmark sale of the Hive solar portfolio, the largest in our history, the successful closing of the Clover portfolio further reinforces our position as a leading developer in selected international markets. We are proud to deliver projects that not only*

meet the highest technical standards but also contribute meaningfully to the energy transition” says **Stephan Hansen, COO of the JUWI Group and responsible for the international business.**

“Over the past five years, JUWI Hellas has successfully completed M&A transactions exceeding half a billion euros and has established itself as Greece’s benchmark for utility-scale solar development and EPC execution. We’ve consistently demonstrated our ability to align strategic vision with operational excellence. The sale of the Clover portfolio to Mirova, along with the signing of the EPC and O&M contracts, marks another important milestone in our journey” says **Takis Sarris, Managing Director of JUWI Hellas.**

**Helene Dimitracopoulos, Managing Director, Co-Head of Energy Transition Infrastructure - OECD at Mirova,** emphasizes: “This transaction perfectly illustrates our ambition with the investment strategy: to support high-quality developers in delivering large-scale, high-impact sustainable energy infrastructure. By investing in the Clover portfolio, we are strengthening our presence in Southern Europe and making a concrete contribution to Greece’s energy transition, while targeting top-tier environmental and technical performance.”

For the successful completion of the transaction with Mirova, JUWI Hellas collaborated closely with the esteemed law firm Karatzas & Partners. “We sincerely thank K&P for their dedication, professionalism, and unwavering commitment throughout the process,” said **Takis Sarris, Managing Director of JUWI Hellas.**

## **ABOUT JUWI GROUP**

The JUWI Group has been one of the leading specialists for renewable energies for almost 30 years and offers complete project development as well as other services related to the planning, construction, and operational management of renewable energy plants. The business areas mainly include projects with wind and solar

energy as well as hybrid systems with storage for industrial applications. The company belongs to Mannheim-based MVV Energie AG, one of the largest municipal energy suppliers in Germany. JUWI employs more than 1,300 people worldwide and is present with projects on all continents. Outside Germany, there are subsidiaries in Italy, Greece, South Africa, the USA, Japan, Australia, India, the Philippines, Thailand, Vietnam and Singapore. To date, JUWI has implemented more than 1,250 wind energy plants with a capacity of about 3,000 megawatts at around 250 locations worldwide in the wind segment; in the solar segment, there are around 2,000 PV plants with a total capacity of around 4,000 megawatts. JUWI's operations management services wind energy and photovoltaic plants with a capacity of more than 4,100 megawatts. JUWI has initiated a total investment volume of more than ten billion euros for the realization of energy projects.

## ABOUT MIROVA

Mirova is a global asset management company dedicated to sustainable investing and an affiliate of Natixis Investment Managers. At the forefront of sustainable finance for over a decade, Mirova has been developing innovative investment solutions across all asset classes, aiming to combine long term value creation with positive environmental and social impact. Headquartered in Paris, Mirova offers a broad range of equity, fixed income, multi-asset, energy transition infrastructure, natural capital and private equity solutions designed for institutional investors, distribution platforms and retail investors in Europe, North America, and Asia-Pacific. Mirova has been active in the energy transition infrastructure sector for 20 years and has financed more than 1,000 projects for a total of over 7.7 GW of potential generation capacity across 49 countries. Mirova and its affiliates had €33 billion in assets under management, of which €4,5 billion for energy transition infrastructure investments as of September 30, 2025. Mirova is a mission-driven company\*, labeled B Corp\*\*.

*References to a ranking, award or label have no bearing on the future performance of any fund or manager. \* Mirova has been a mission-driven company since 2020. For more information: [www.entreprisesamission.com](http://www.entreprisesamission.com). \*\* Since 2006, the B Corp movement has been promoting strong values of change worldwide to make businesses "a force for good" and to distinguish those that reconcile profit (for profit) and the common good (for purpose). The goal of B Corp is to certify companies that incorporate social, societal, and environmental objectives into their business models and operations. B Corp certification is a designation indicating that a company meets high standards of verified performance, accountability, and transparency on factors ranging from employee benefits and charitable donations to supply chain practices and input materials. Certified since 2020, Mirova submits a new B Corp certification application every three years. The annual renewal fee for certification is €2,500. For more information, please visit the B Corp website here: <https://www.bcorporation.net/en-us/certification>*
